1. MARKET OPPORTUNITIES

The growth of the gaming industry can never be compromised for anything in this present generation of ours. Online gaming community has become the new trend of world empire. As it has propelled itself as the fastest growing, scalable and stable industries currently. With various individual studies showing that there is a possibility for this present market to further increase its output in the nearest future with an average growth rate of 15 to 20% per year. It is obvious that betting and gambling being the most recognized thing in the casino spherical space also being the oldest and modernized industries worldwide with view of expansion and further industrial growth, it shows and provide a scalable opportunity for us, as Blaze Network will be part of this futuristic expansion and growth. It further springs up a safe environment for worldwide or global investors alike for safe investment without any limitation. As the industry continue to produce reliable growth and revenue for decades upon decades.

1.1 CHALLENGES & SOLUTIONS

Every industry has its own challenges, this means the betting, gambling and casino industry also has its own features of challenges faced by every individual in this industry, some problematic and challenges that undermine and limit the potential growth of online gaming includes:

* Lack of Transparency

Various betting industrial companies and outfit of casino operate under a secretive situation without confidentiality, thereby misleading the general public by not allowing customers to fully understand their mode of operation. This has led to many skeptical situations and install fears in the gaming community players.

- ✓ At Blaze Network, everyone is seen to be an owner, and all mode of operations are made for members and community to see and fully relate with. This has further set Blaze Network and placed them on high, far above other various industrial projects and communities with place or involvement in the betting industry. With our entire system being open and transparent for system checking, where all transactions are stored for verification purposes.

* Experience

Most of those gaming community players have unpleasant experiences, due to their past involvement in some previous project in the space.

- ✓ Blaze Network is open to make its community a lead blazer in all that they do, with full experience team of stars, and commitment in work all round the clock, Blaze Network is ready

to give everyone and associate, the best experience, and one of a kind, with full customers satisfactory.

* Registration Difficulty

With quite simple and proper registration and payment, all processes are just as common as a regular. Incomplete registration also has an opportunity to contact Dev Team for solution and further assistance, as the team are working tirelessly round the clock on a 24/7 because of the dissatisfying user experience.

- ✓ Blaze Network always pay close attention to its community because they see the community as the most important and integer part of the ecosystem platform. So, every registration is always do not with fastness and speed without limitation or anything. Registration form short, simple and easy to use. Upon completion, you're able to deposit, and get access to a fantastic collection of games.

* No Guaranteed Payment

Many experienced difficulties during the period of cashing out their resources or funds. With some many requirements to submit and waiting for approval, with frequent delays, and sometimes experiencing occasional refusals due to rejection of submitted document or application.

- ✓ Blaze Network is not a guaranteed platform, payment to community is not guaranteed. As we can do transaction and withdrawal with few minutes, no delay of permit in withdrawal as this is also done with speed and fastness for customers satisfaction and better experience. Our unique token is set to take over the casino industry thereby allowing users and gamers to provide effortless, fair and secured transaction within a short range of time accessibility

* High Fees

Obviously, the betting industrial operators, charge numerous fees for everything service carried out on their platform, withdrawal and depositing, sometimes with some hidden charges, which are not encouraging in the industry.

- ✓ All charges of Blaze Network are open and plain for all, no hidden charges, as all charges are made known and open for review for community and gamers to see.

2. ABOUT BLAZE NETWORK

Blaze Network is a deflationary token, which features a burn 2% mechanism on each transaction made within and outside of the blaze platform ecosystem.

The project has a unique user case, which set it aside and uplift its special uniqueness and differentiate it from other deflationary project in the crypto space.

Blaze Network aim to revolutionize different industry along with online casino and betting industry. Blaze token is completely confident about this unique adoption of the project

The Blaze Network token was created for special usage in various industries of different ecosystem which include highly recommendable casino games, high reward staking programs and events with the special vision of becoming the leading and powerhouse for casinos and online gaming industry.

The project also featured a unique cryptography wallet application with lot's of functionality which includes buying and selling goods service within the ecosystem marketplace, gaming, trading cryptocurrency and lot more in relation to futuristic development and expansion of various services.

4.3. Token Allocation

4.4 TOKEN SALES

The first phase of token sale was made available for few weeks, which occurs as presale, and just as promise, all unsold tokens were burned and completely destroyed, this was done, to further enchant the economic power and capability of the token. As the circulating supply decrease so also the token economic importance increase, and the value sky rocket ones more.

5. Marketing Strategy

We have a lot of marketing strategies and as things unfold we will keep moving with speed and step by steps.

* Bounty/Airdrop

Creating awareness is obviously a big part of community development. The Blaze Network will introduce, its bounty/airdrop and promotional program, which will be made available and open for everyone within or outside the community to be part of. This will enable the users to get some certain amount of token sent directly into their wallet address provided the meet and provided all certain or necessary requirements.

* Networking in every project aspect is one direction, the team plan to follow as Blaze Network plan to attract more investors and reached out to more communities while announcing and making known of their project through various medium of Industrial advancement. The project will build and open the door for investors and partnerships with various affiliate network, As it aim to further impact and unleash its uniqueness towards leading the industry with its network of expert teams.

* Social Media Marketing

Blaze Network will be well represented and supported on various social media community with full presence on Facebook, Twitter, Telegram, LinkedIn, Medium among others social media network.
